Re: Napoleon Civic Center

Mr. Neuenschwander:

The Napoleon City Council and Mayor support the efforts of the Napoleon Civic Center Group in rehabilitating and establishing a facility for performing arts, office space and other uses in Napoleon. This project has the potential to bring visitors to our great City and establish an amenity that no other communities have around. It also helps in preserving a part of the community's heritage by putting back the former Central School into productive reuse.

The Civic Center Group has done well to raise funds and establish a robust concept for this site. With more effort and community buy-in, this project can be an asset for Northwest Ohio.

Please contact our City Manager, Joel Mazur, if you have any questions or requests of the City of Napoleon.
